

# Pre-germinated seeds

## Usage tips

Ex : *Cornus sanguinea*

### DELIVERY

- Scheduled with the customer, according to his work availability, weather...

### RECEPTION

- Wet seeds <sup>1</sup>
- Few partly split seeds show dormancy break

### STORAGE

- Sowing upon receipt
- But in case of setback or bad weather:
  - To store in a cold store, from 0°C to 5°C and for a maximum of 8 days
  - To conserve in the closed upright position original packaging
  - To aerate and stir seeds every 2 days, then to close the bagsWatch-out! To use gloves while handling treated seeds with Thirame fongicide (=Thir) <sup>2</sup>

### SOWING

- Do not soak seeds before sowing
- To adapt sowing density to seedlot figures <sup>3</sup>
- To keep medium moist until seed sprouting is complete
